Available in three colors:
White, **Silver** or **Bronze**

PlexiDor **Door Series** dog doors are designed for installation into a standard exterior household door made of fiberglass, wood or steel. There are four sizes; Medium, Large, Large Plus and Extra Large, to accommodate all dog breeds worldwide.

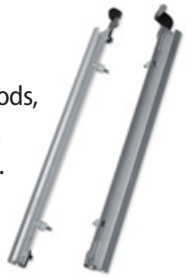

Since 1985, we have been manufacturing dog doors at our facility in Bradenton, Florida. Throughout our history, the PlexiDor product development team has worked closely with extreme users to engineer a strong, safe, energy efficient, and dependable product. PlexiDor Performance Dog Doors are manufactured to provide years of trouble free use and are warrantied for 10 years.

Your family and your dog will enjoy the freedom and peace of mind that a PlexiDor dog door provides. Freedom from the worry of damage to your floors and carpets and peace of mind knowing your dog has safe and easy access to the outdoors. Plus, the added health benefits of fresh air and exercise.

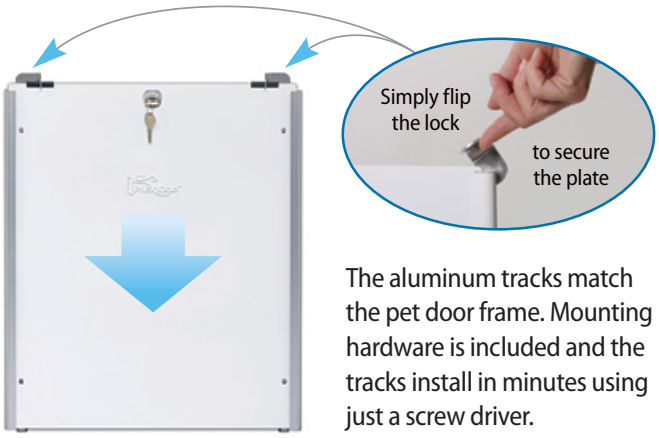

PlexiDor **Door Series** and **Wall Series** dog doors are available in four sizes: **Medium** (MD), **Large** (LG), **Large Plus** (LGP) and **Extra-Large** (XL). We have a dog door size to fit your dog. Refer to the **Size Chart** on the back cover and contact your PlexiDor dealer for more information.

PlexiDor® Accessories

Sliding Track with Flip Lock

Whether leaving your home for extended periods, or for added safety every day, the Sliding Track accessory makes securing your home a breeze. With the left and right tracks attached to the interior frame of your PlexiDor, the security plate slides easily into place. Then, simply turn the Flip Locks to secure the plate in position. ***It's that easy!***

The aluminum tracks match the pet door frame. Mounting hardware is included and the tracks install in minutes using just a screw driver.

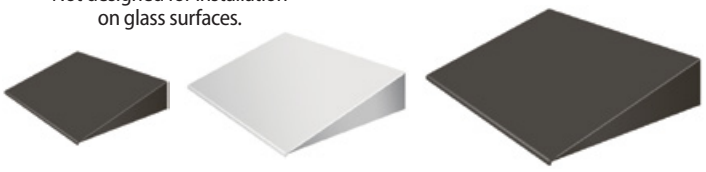

Dog Door Awning

The easy-to-install **PlexiDor® Awning** helps to prevent rain, sun, snow, and other outdoor elements from entering your home through your dog door.

The pet door awnings are made from aluminum and feature a durable powder coated finish. They are available in **white** or **bronze**. The awning is a perfect addition to your PlexiDor **Door Series**, **Wall Series** or **Electronic Series** dog door application.

Not designed for installation on glass surfaces.

Awning sizes: **Small** (SM), **Medium** (MD), **Large/Extra Large** (LG).
Choose from two colors: **White** or **Bronze**.

Superior design, premium hardware and quality components ensure years of trouble-free service

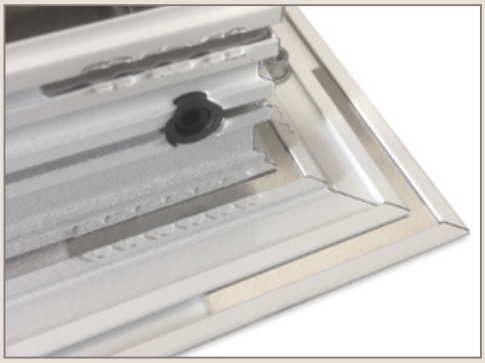

Aluminum Frames

The heavy duty aluminum frames will not rust, bend, crack or warp. Corners are reinforced to maintain their shape, even after years of heavy use.

We love this door and so does our Cairn Terrier, MacDuff. We really are impressed with how well the door seals itself. There is absolutely no draft. Truly an exceptional product! Thank you.

Ian McIntosh ~ Calgary, Alberta, Canada

Composite Panels

Exclusive **K9 COMPOSITE**™ saloon style panels are shatter resistant like a jet windshield and lined with industrial weather seal for energy efficiency.

K9 COMPOSITE™

PlexiDor's exclusive composite is specially formulated to resist damage from high impact, sunlight exposure and extreme temperatures.

Performance Springs

High-performance stainless steel springs are concealed within the frame and are protected by ABS caps to prevent damage from dust and debris.

I just wanted to say that I installed your PlexiDor 12 years ago. My four dogs have access to it 24 hours a day. Needless to say the door has been used millions of times and I have not had the first problem. Thanks for a great product.

D. Rickman ~ Arizona

Lock and Key

A lock and key and 20 gauge steel security plate are standard features, allowing you to prevent access by securing the dog door when desired.

90 Day Money Back Guarantee · 10 Year Warranty

PlexiDor products may be covered by one or more of the following international Patents or of Patents Pending:

PlexiDor Dog Doors MADE IN USA

The PDE dog door is available in two colors, choose from **Bronze** (BR) or **White** (WH).

The PlexiDor **Electronic Series** (PDE) operates automatically for the ultimate in convenience and security. The PDE has a composite panel that slides up and down like a miniature garage door. When security and controlled dog access are a priority, the PDE is a great choice.

Using RFID technology (Radio Frequency Identification Device), a sensor reads the coded collar key to open and close. The door panel is then automatically secured after each use.

Collar Key

The PDE is dog and child safe and will not close if obstructed. You can set the timer to control how long the door stays open before closing.

5 Year Limited Warranty

Any defective part will be replaced for 5 years from date of purchase. Labor is not covered. See warranty for details.

The **Electronic Series** accommodates dogs up to **125 pounds** and **all cats**.

A look inside the PlexiDor **Electronic Series** dog door reveals state-of-the-art technology and features.

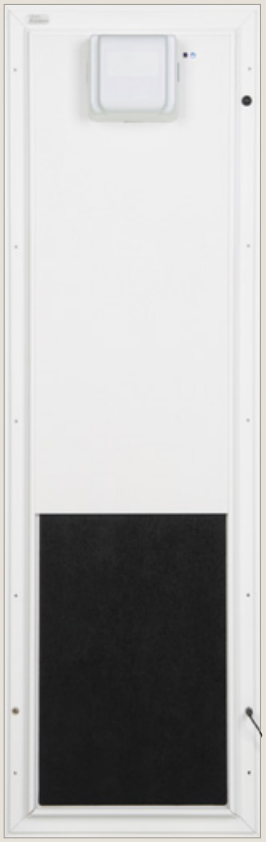

Smart-Door Technology

The internal circuit board uses RFID technology. It detects the collar key to open and close for your dog only.

One-Touch Programming

It's simple to set codes and adjust door timing. Easy to follow instructions are printed right inside the motor cover.

Front Panel – Interior of Home

Reverse side of the Front Panel

Heavy-Duty Aluminum Frames

The aluminum frames are reinforced with stainless steel corner fasteners for added rigidity and structural integrity.

Steel Deadbolt Lock

The steel deadbolt locks automatically after your dog passes through to ensure the safety and security of your home.

Protect Your Family, Your Dogs and Your Home

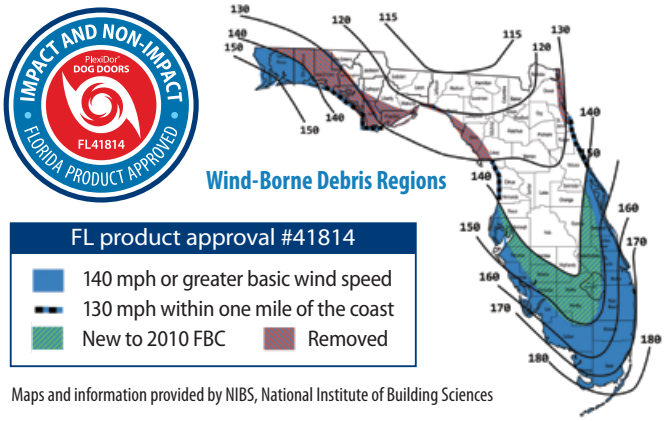

If you live in an area highlighted on the high-wind and impact region maps, you need a **PlexiDor® HURCAN Series** dog door to meet building code requirements. If you live in an area shown in white or the red/blue stripe zone, you can use a standard PlexiDor **Door Series** or **Wall Series** dog door shown within this catalog.

The Florida map shows wind borne debris regions in blue and green. These areas require the **HURCAN Series** dog door to meet state building code.

PlexiDor® HURCAN – Door Series

Designed for fiberglass, wood or metal exterior doors

Includes custom fit storm shutters and installation hardware

Exterior frame features shutter mounts

Storm shutters are easily installed

Item Number	Series	PlexiDor Size	Frame Color
PD HURCAN	DOOR	Medium (MD)	White (WH)
PD HURCAN	DOOR	Large (LG)	White (WH)
PD HURCAN	DOOR	Extra Large (XL)	White (WH)

The PlexiDor HURCAN Series is not approved for the High Velocity Hurricane Zones of Miami-Dade and Broward counties in Florida.

PlexiDor® Energy Efficiency

PlexiDor® Performance Dog Doors help keep heating and cooling inside your home. Each time you open a standard sized household door to let your dog out, your valuable **HEATING** and **COOLING** is allowed to escape. This means you pay more for your energy bill every month.

Installing a PlexiDor can help you save money! Review the statistic scenarios and chart below to determine your estimated annual savings.

Saving 10 percent each month could save you $900 in just five years.

The above estimate is based on these figures:

An average spring/summer temperature of between 80° and 100° F with a household cooling temperature of 72° F.

An average fall/winter temperature of between 32° and 45° F with a household temperature of 72° F.

Above results typical of PlexiDor owners and are based on 25+ years of worldwide customer testimonials.

Actual results may vary based on household insulation, roof and window type, age and size of home.

Saves Money Each Month on Energy Bills

Opening a standard sized household door allows energy to escape.

Installing a PlexiDor keeps the heating and cooling inside your home! Opens fast, closes tight!

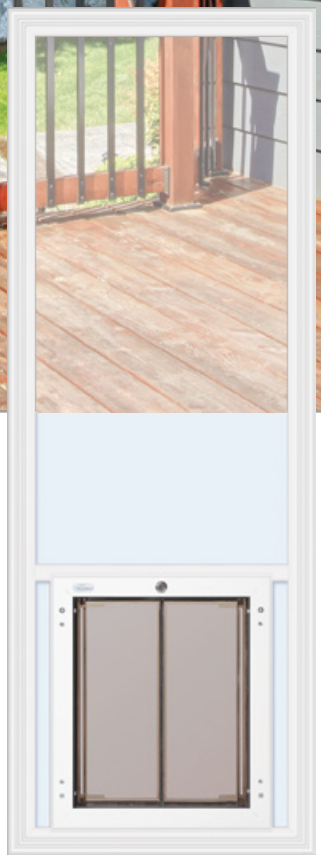

Average Monthly Energy Bill	Annual Expense	5 Year Total	5% Savings	7% Savings	10% Savings*
$100	$1,200	$6,000	$300	$420	$600
$150	$1,800	$9,000	$450	$630	$900
$200	$2,400	$12,000	$600	$840	$1,200

** Average total savings in 5 years / 60 months*

Glass Professionals: For **French Door Insert** and **Sliding Glass Door Insert**, the PlexiDor dog door is factory preinstalled in the glass. You do not need any new tools. It is simply a glass replacement.

French Door Insert

When a French patio door is the ideal location for a dog door installation, the PlexiDor Glass Series **French Door Insert** is the solution. The insert is shipped fully assembled with a PlexiDor preinstalled in the glass and ready for replacement of existing glass.

The **French Door Insert** is pictured here with a **Large** (LG) PlexiDor dog door.

We have dog doors to accommodate all breeds. Choose from **Medium** (MD), **Large** (LG), **Large Plus** (LGP) or **Extra Large** (XL).

The insert replaces the original French door glass panel only. Existing door frame, handles and hardware remain unchanged.

Vinyl frame and weather seal

Insulated Glass (IGU) standard

Your Local Dealer/Installer:

Here's what PlexiDor Dog Door owner's are saying:

"Last fall I purchased and installed a large wall mount PlexiDor, probably the best purchase I made all year. Absolutely love it! It has been utterly amazing during our sub-zero Alberta weather, even at -40 degrees, there is just a smidgen of cold from between the felt, but not enough to even notice. Amazing!!! An incredible dog door!! Thanks!"

L. Bruck, Alberta, Canada

★★★★★

"I have a medium size PlexiDor for my Corgi/Jack Russell mix, and he loves it. I'd give it six stars if I could. The only way you can go wrong is by not buying a PlexiDor!"

J. Whaley, Colorado

★★★★★

"14 years of three Border Collies thundering in and out, without a mechanical failure. That's less than five pennies per day! I wish dog food, vet fees, and insurance were that low."

M. Richards, U.K.

★★★★★

"Bought the PlexiDor door 23 years ago for my Siberians. Absolutely the best purchase I ever made! It has worked 24/7 all these years and never a problem. The dogs love it! A life saver during long work days."

Krissimac, USA
